

HEAVY DUTY CASTER OPTIONS

SP5

Industrial semi-pneumatic 5" casters are puncture resistant and provide shock absorption and quiet operation. Even on a rough terrain like gravel or dirt, the pneumatic casters are great for transporting fragile cargo. These casters are recommended for use with our EC 18x32 Tub and Flat Shelf industrial carts.

SP6

Industrial semi-pneumatic 6" casters are puncture resistant and provide a cushioned ride, shock absorption, and smooth and quiet operation. Whether you're in a warehouse, hospital, restaurant, and just about any outdoor environments, the semi-pneumatic casters can smoothly transport cargo – even on rough terrain like gravel or dirt. These casters are recommended for our TC 24x32 Tub and Flat Shelf industrial carts.

P8

Industrial 8" pneumatic casters provide a cushioned ride, shock absorption, and smooth and quiet operation. The 8" Pneumatic Caster is the perfect addition to warehouses, hospitals, restaurants, and many outdoor environments. Regardless of topography, the pneumatic casters can even smoothly transport cargo on rough terrains like gravel or dirt. These casters are recommended for our TC 24x32 Tub and Flat Shelf industrial carts.

P8-8"

SP6-6"

SP5-5"

Fully Pneumatic 8" or Semi Pneumatic 6" or 5"

Three popular sizes to choose from

- Four 5", 6" or 8" zinc-plated casters
- Two stationary and two swiveling with locking brakes
- Single row bearings on swivel casters
- Caster widths are: 1.25" for the SP5, 2" for the SP6 and 2.75" on the P8
