

HE34-B

THREE FLAT-SHELF UTILITY CART

Three flat-shelves make HE34-B the ideal utility cart for healthcare facilities that are seeking an affordable storage and transport solution. This multipurpose cart is made out of high-density polyethylene which is known for its incredible strength to density ratio while being resistant to scratches, dents, or rust.

Perfect for hospitals, clinics, medical offices, and residential facilities, the HE34 is constructed to carry heavy loads up to 300 lbs. and easily glides down hallways and across carpets using the integrated push handle and four 4" casters, two with locking brakes. Each shelf has a .25" retaining lip that keeps contents from sliding while the 12" of clearance between shelves makes loading and unloading a breeze.

Dimensions:

- Overall: 24"W x 18"D x 34"
- Clearance between shelves: 12"
