

CART MOUNT

KBEP-BRKT-P

KWIKBOOST EDGEPOWER™ PLASTIC UTILITY CART ATTACHMENT BRACKET

Turn your Luxor plastic utility cart into a portable charging station. The KwikBoost EdgePower™ Plastic Utility Cart Attachment Bracket makes it easy to mount your EdgePower Clamp-On Desktop Charging Unit to select Luxor plastic tub cart and utility cart models.

It's perfect for warehouse, manufacturing, education, and service applications where mobile, cordless power to electronic devices is necessary. Examples include digital scales, laptops, printers, projectors, card readers, and much more. The bracket simply screws onto the cart using existing mounting holes, perfectly positioning the EdgePower charging station for easy access to power without diminishing the storage capacity of the cart.

NOTE: Choose model KBEP-BRKT-M for use with Luxor's metal AV carts.

Dimensions:

Overall: 12" D x 3.375" W x 1.25" H

Product Weight: 2 lbs.
