MOBILE TABLET/CHROMEBOOK CHARGING CART

Luxor’s LLTM30-B charging cart is our best-selling modern tool used to charge, store, and transport your tablets and Chromebooks. Whether travelling from the library, down a hospital hallway, or through the corporate office, the durable non-marring casters and long-lasting tread help smoothly guide the charging station to its location. The cart’s two 15-outlet 120V/15A vertical electric power strips enable ongoing battery life while also conserving space in storage. Upgrade your workspace with this multi-purpose charging station.
