

ADJUSTABLE-HEIGHT STEEL CART WITH BATTERY-POWERED DEVICE CHARGER

**AVJ42-KBEP**

## ADJUSTABLE-HEIGHT STEEL CART WITH BATTERY-POWERED DEVICE CHARGER

Modern warehouses, manufacturing facilities, and other industrial workspaces need to keep their devices charged throughout the day. Whether employees are managing inventory, conducting cycle counts, or working on shipping and receiving docks, there's lost productivity when time is spent leaving an area to recharge depleted devices when power runs low.

Educators, meanwhile, need teacher carts that are compact, mobile, yet offer ample storage for classroom materials. And since teachers rely on electronics, it's also helpful to have access to dependable, cord-free power for mobile devices.

Recognizing these needs, Luxor took its best-selling steel utility cart and combined it with the game-changing KwikBoost EdgePower® Charging Station. The result is a reliable, 100% cordless solution that delivers power when you need it and where you require it. Now workers can keep laptops, label makers, barcode scanners, and other essential devices charged and functional throughout the day, and teachers can travel from room to room confident that their laptops, phones, tablets, and Chromebooks will stay charged.

Part utility cart. Part portable charging station. Entirely useful.

## Adjustable-Height Steel Cart with Battery-Powered Device Charger

AVJ42-KBEP

Whether used as a teacher cart, shipping station, receiving station, quality testing station, or inventory management tool, this convenient, cordless, mobile power solution lets you take your workstation wherever it is needed.

### Adjustable-Height Steel Cart Features:

- Adjustable height from 24" to 42" in 2" increments
- Rolled-form shelves with .25" retaining lip
- Sturdy steel construction with powder coat finish
- Robotically welded for structural stability
- 4" full-swivel ball bearing casters, two with locking brakes
- Three-outlet, 15" UL- and CSA-Listed electrical assembly
- Total Weight Capacity (Evenly Distributed): 75 lbs.
- Weight Capacity Per Shelf: 25 lbs.

### KwikBoost EdgePower® Features:

- Eliminates the need for extension cords and power strips which are inconvenient and potential trip hazards
- Cart-mounted charging station provides:
  - 100V-120V 90W AC outlet
  - USB-C PD charging port
  - USB-A charging port with Quick Charge 3.0 technology
- One EdgePower battery charges:
  - Laptops up to two times\*
  - Tablets up to four times\*
  - Smartphones up to 14 times\*
- EdgePower Rechargeable Batteries are easily interchangeable and fully recharge in as little as two hours
- Kit includes:
  - EdgePower Charging Station
  - Mounting bracket that allows Charging Station to clamp onto the cart
  - Two rechargeable batteries
  - Single battery charger

\* Results will vary depending on device make and model  
US Patent # 112889935
