Flat Foot x6

- 1 Start by laying the Room Divider Panels on a large, flat, stable surface. Please note that the panel with zippers on both sides goes in the middle and the outside panels should have the zippers facing inwards towards the middle panel. Find the pre-drilled holes in the bottom of the dividers and make sure they are all on the same side of the table. Next, find the zipper tabs and make sure they are at the top of the panels. Zip the panels together by pulling the zipper tabs from the top of the panel all the way to the bottom of the zipper.
