RECLAIM® STICK-ON DECORATIVE ACOUSTIC WALL PANELS

Luxor RECLAIM® Stick-On Decorative Acoustic Panels beautify a room while helping to absorb reflection to reduce flutter echo and other common acoustic problems. Like our top-selling acoustic room dividers and desk dividers, these hexagon-shaped panels are made from post-consumer recycled PET. Rated to absorb 75% of ambient noise that passes through the material (NRC 0.75), they reduce the amount of sound bouncing off of walls.

If you've ever clapped your hands and heard an echo, that's called reflection. In an office or classroom setting, reflection can make it harder to concentrate, more difficult for people to understand each other when conversing, cause audio issues during conference calls, and generally make a room seem noisier.

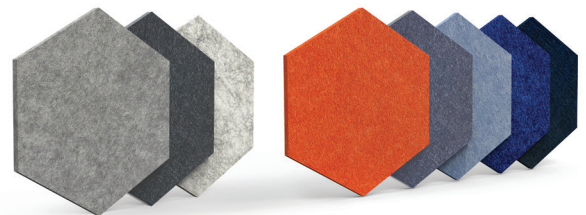

These 3D wall panels easily attach using included adhesive strips to help create a quieter and more inviting environment. In addition, the attractive hexagonal shape and soft colors add visual interest for enhanced aesthetics.

Dimensions:

- Overall dimensions (thick panel): 9.5" W x 11" D x 0.5" H
- Overall dimensions (thin panel): 9.5" W x 11" D x 0.35" H
- 6-pack includes: 3 thick panels, 3 thin panels, 12 adhesive strips
- 12-pack includes: 6 thick panels, 6 thin panels, 24 adhesive strips**
- Noise reduction coefficient (NRC): 0.75

Features:

- Lightweight and easy to attach with included hook and loop-style adhesive strips
- Absorbs ambient noise that passes through the material
- Manufactured from eco-friendly, 50% recycled PET
- Panels can be arranged in a variety of attractive configurations to customize the look of a work or learning space
- Each kit includes two thicknesses of panels to create a visually interesting 3-dimensional effect
- Available in 6-packs and 12-packs in a variety of attractive colors
- Adhesive strips can be easily removed without damage to paint or walls*
- Meets ASTM E84 Class A and EN13501 Class B fire standards
- 5-year limited warranty

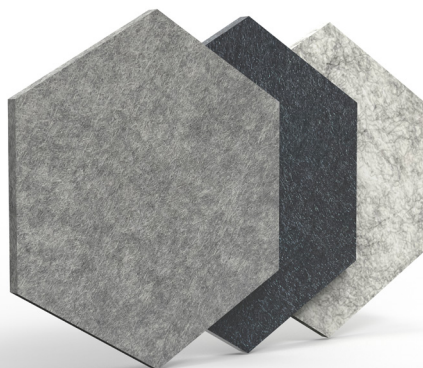

*Carefully follow directions when removing adhesive strips to prevent damage.

**12-pack available only in "Ocean Foam" three-color combo, which includes a mix of Storm Blue, Marbled White, and Graphite Gray panels.
