### USB-C

If your laptop has a USB-C port with one of the following symbols, it is compatible with the SideTrak monitor.

### USB-A

If your laptop does not have a compatible USB-C port, you can connect with a USB-C to USB-A cable and you will need to download the [DisplayLink driver](#).

## Compatibility

Windows

Touchscreen functionality is not compatible with Macbook devices. For Macbook users, we recommend our non-touchscreen Swivel Pro portable monitors.

To make the most of your touchscreen display, we recommend pairing with our compatible SideTrak Touchscreen Stylus.

## Swivel. Nest. Go.

Dual screens seamlessly fold together – without added bulk. Thoughtfully positioned ports keep the monitors protected while in a bag.

Patent No.: 11,531,374

## Enhanced Collaboration

Transform the way your team works together by giving them the ability to conveniently share their screens with coworkers and clients.

## Interactive Touch Display

The responsive touchscreen enables streamlined navigation while the customizable display menu lets teams adjust their preferred viewing preferences.
